INTRODUCTION

- **Who we are!**
- Pheladelfia nursery started in 2004 with over 1.5 million square feet in UAE now. Our exotic nursery farm is located in Abu Dhabi, where plants and trees are propagated and grown to special sizes. Since then, our philosophy to grow wide selection of plants which are most adapted to UAE climate and try to introduce more plant species in the entire United Arab Emirates and to the other countries. In addition to plant growing, we started the plants trading domain through which we concentrated on the highest quality of plants with the minimum time frame to meet the clients targets.
- We have mass production capabilities with highly skilled and well trained nursery staff for special contract requirements with limited time frame. We accommodate retail nurseries who sells to the general public, wholesale nurseries that sell only to businesses such as other nurseries and to commercial gardeners, and private nurseries that supply the needs of institutions or private estates. We strongly encourage customers to visit our nursery in Abu Dhabi. You are most welcome to visit and hand pick your desired plants, then with please we will pack and deliver them to your location...

Where we come from!

Our journey began in Abu Dhabi, where we planted our roots over a decade ago. Since then, we've been dedicated to contributing to the region's agricultural and landscaping industry, leaving a lasting mark on the local landscape...

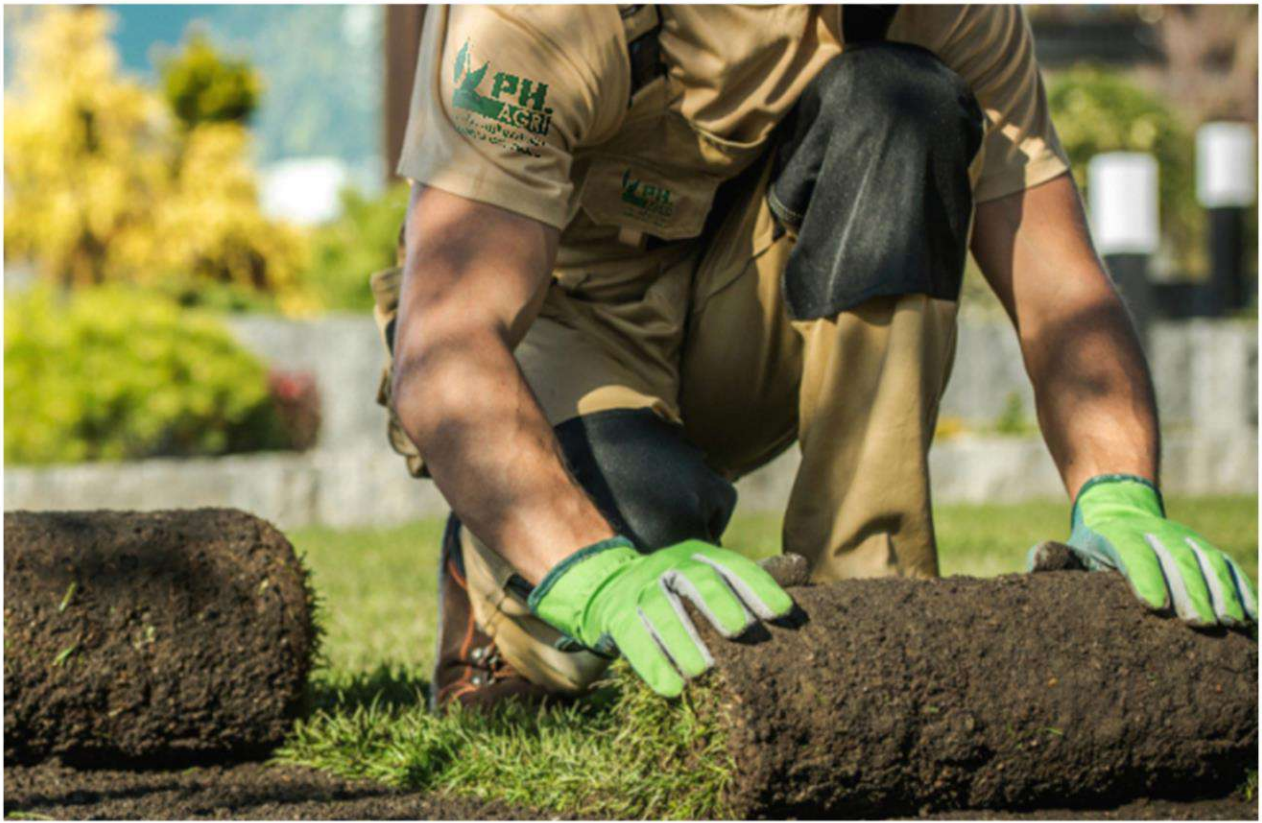

At Pheladelfia Agricultural, our core focus is on nurturing and growing various types of plants and trees, providing top-notch landscaping services, and exporting our horticultural products to clients around the world.

What we do!

OUR VISION

Our core philosophy centers around our vision of creating a greener future for all, utilizing our expertise and experience. We aim to introduce innovative standards of horticulture and trading that bring new vibrancy to the green environment...

To be a leading and professional nursery corporation by implementing plans of unrepresented quality standards with innovative designs at most competitive cost...

OUR MISSION

GOALS

Our goals include continuously improving our cultivation techniques, expanding our global reach, and fostering ecological awareness through our projects.

Our core values include integrity, sustainability, quality, and innovation. We are committed to conducting our business with honesty, protecting the environment, delivering top-quality products, and staying at the forefront of industry advancements.

CORE VALUES

PLANT BROKERIN

We offer plant brokering services, connecting buyers and sellers in the plant industry, ensuring a smooth and efficient exchange of horticultural products.

Our expert landscaping services are designed to transform spaces into lush and inviting environments, ranging from residential gardens to large commercial projects.

LANDSCAPING

E XPORTING

We export our high-quality plants, trees, and landscaping materials to clients worldwide, bringing a touch of green beauty to different corners of the globe.

We maintain rigorous quality control measures throughout our cultivation and landscaping processes to ensure that our clients receive the best products and services.

QUALITY ASSURANCE

OUR SERVICES

Our services encompass plant brokering, landscaping design and implementation, and exporting top-notch horticultural products.

Quality control: Ensure high standards of quality thanks to our presence at origin. We only work with trusted nurseries, and we check all the plants before they are delivered to you.

Logistics: Receive the plants on time and in the expected good conditions. Because we know that getting the plants when you need them is crucial for your business.

Centralized purchasing: Centralized purchasing in Philadelphia Agricultural Nursery can significantly enhance the efficiency and effectiveness of your procurement processes.

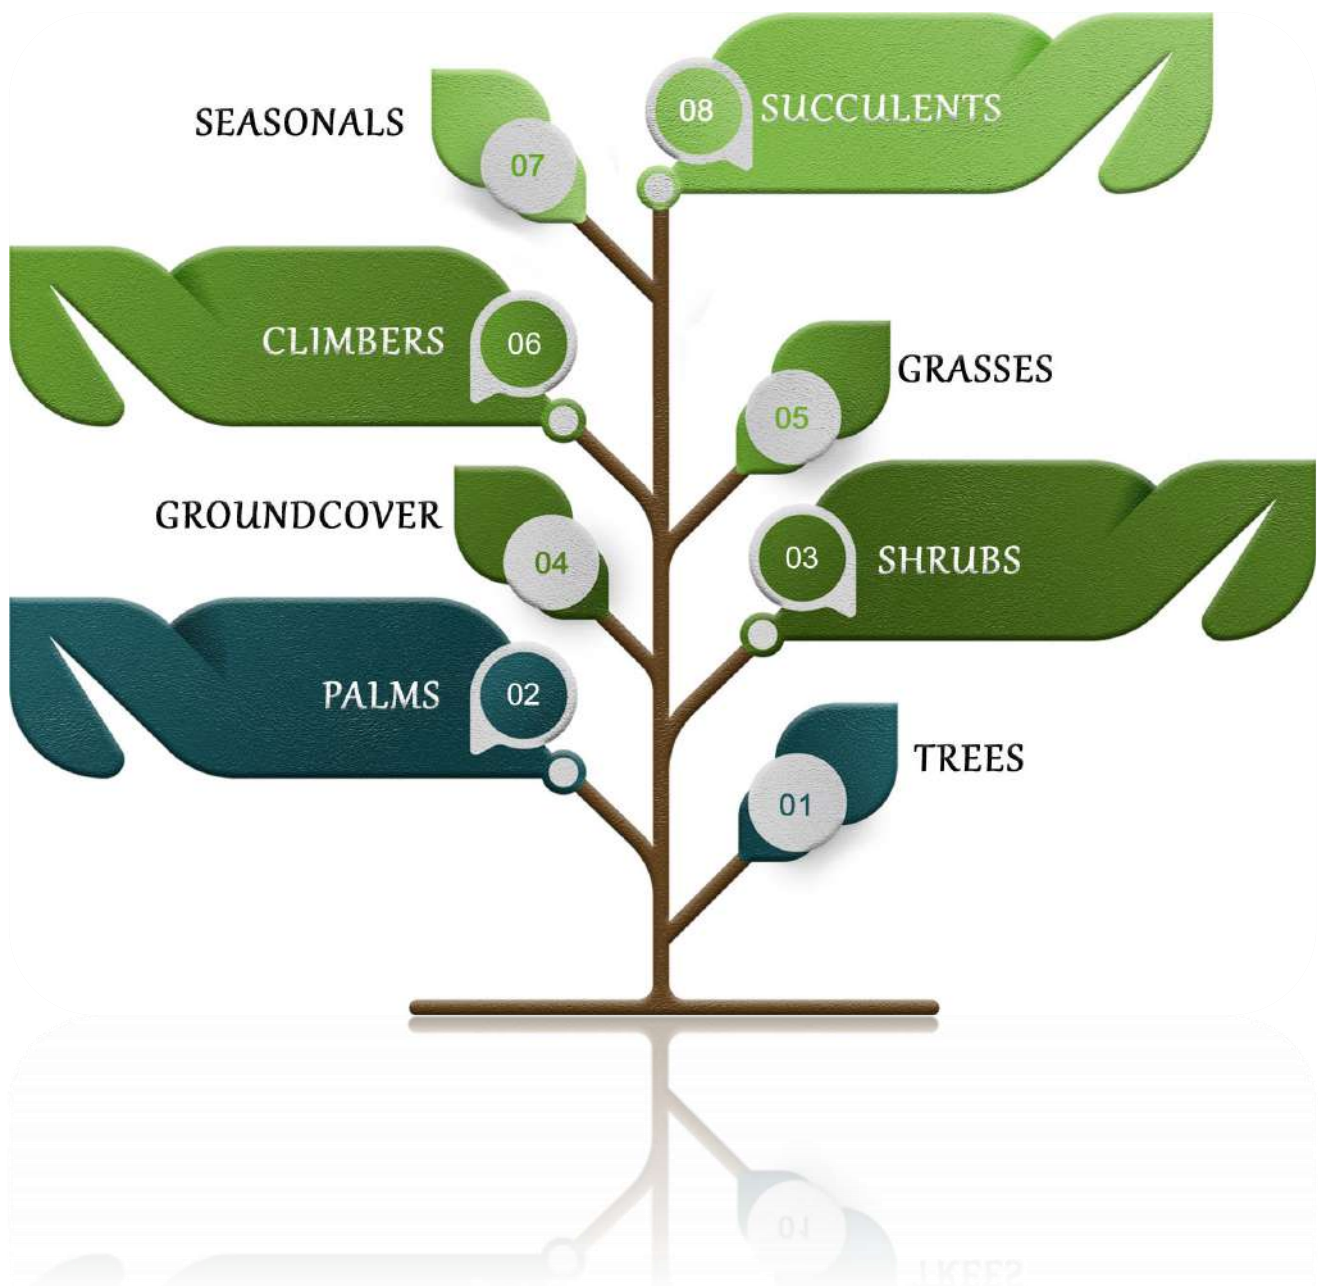

Rapid location of plants: Get prices and availability of all the plants and trees you need. Part of our team is at the field constantly visiting nurseries and updating their stock.

PRODUCTS

At Pheladelfia Agricultural, we take great pride in offering a wide range of high-quality horticultural products to cater to all your landscaping and gardening needs. Our extensive product catalog includes:

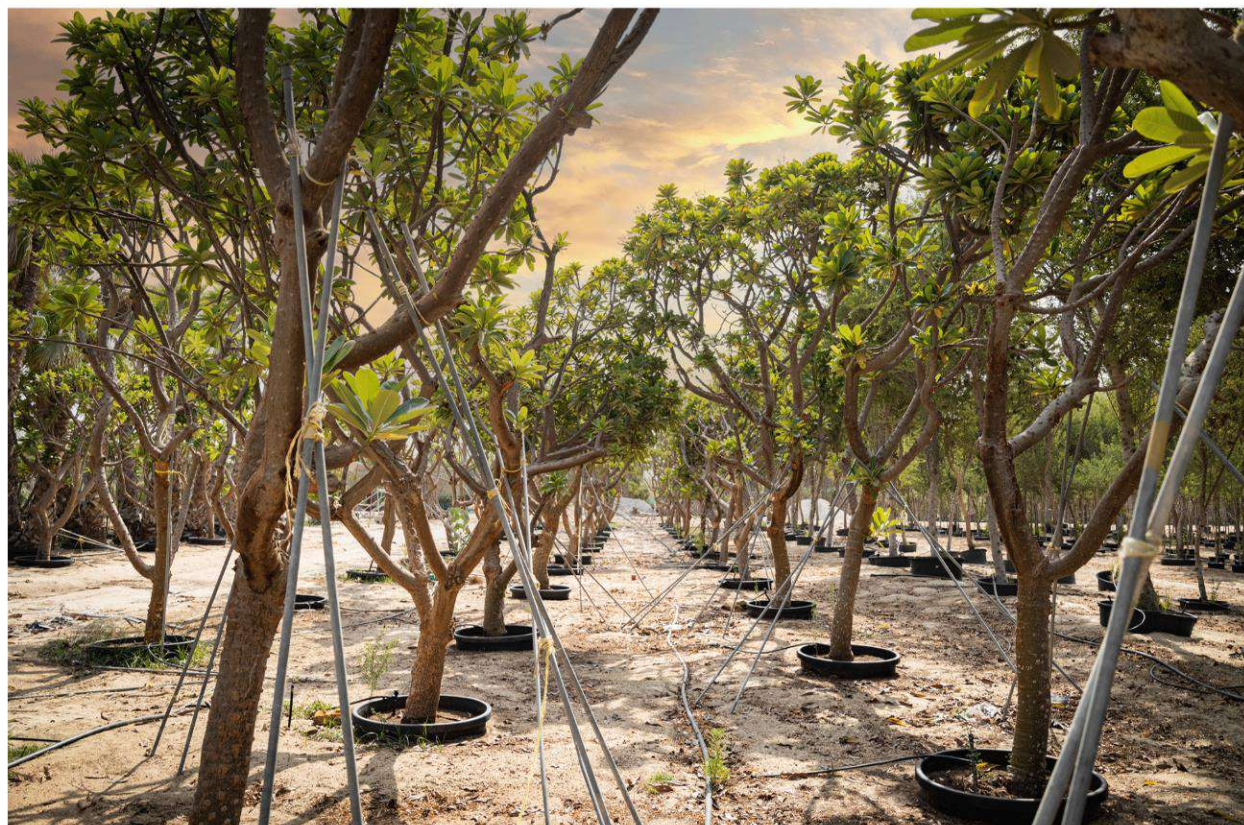

T REES

Our tree collection features a diverse array of species, including both native and exotic varieties. Whether you need shade trees, or ornamental trees options, our trees are expertly cultivated to thrive in UAE climate.

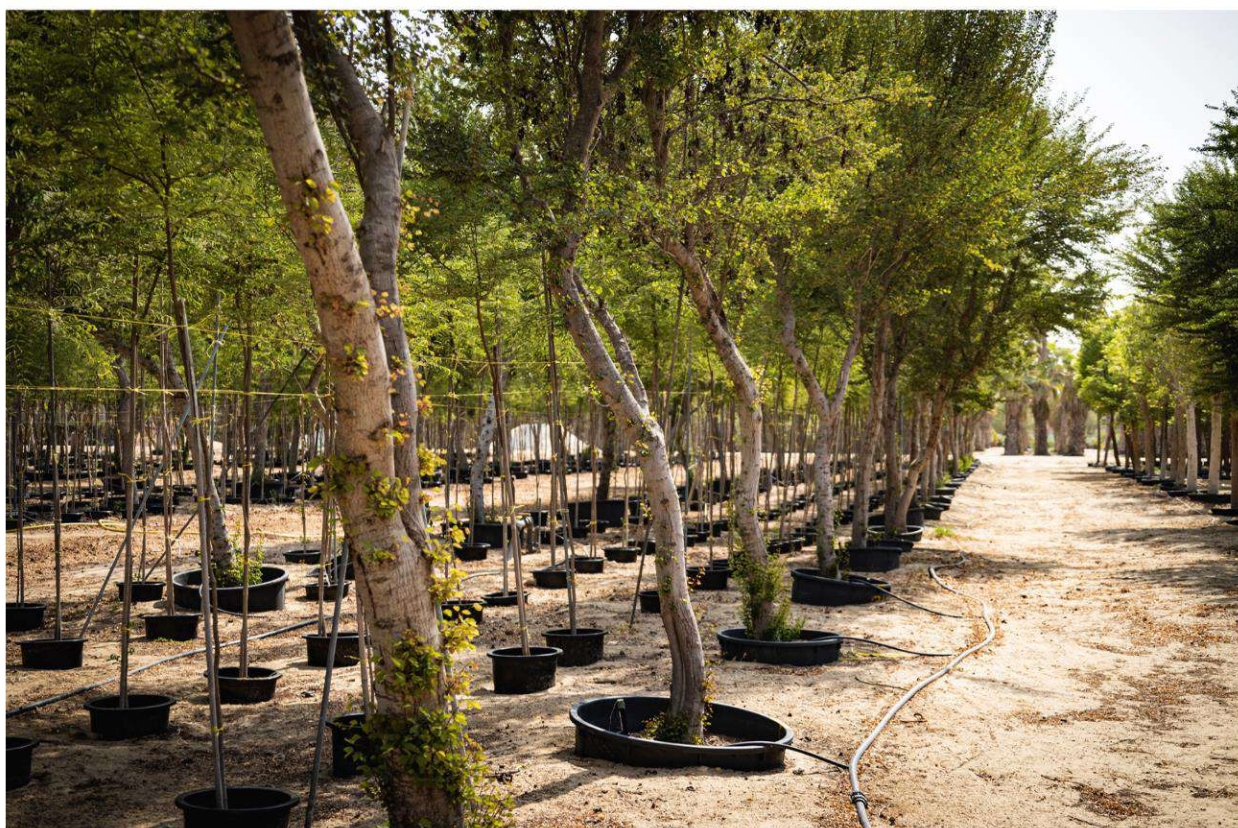

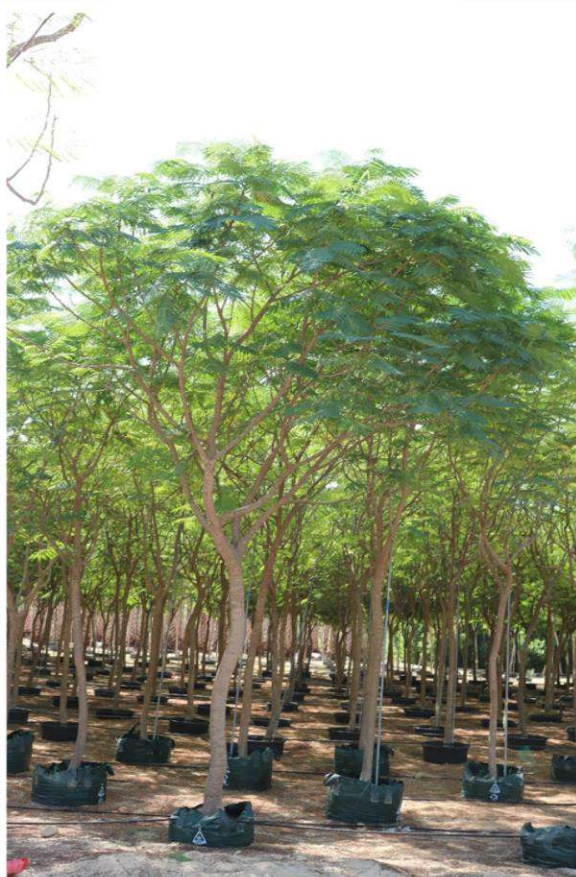

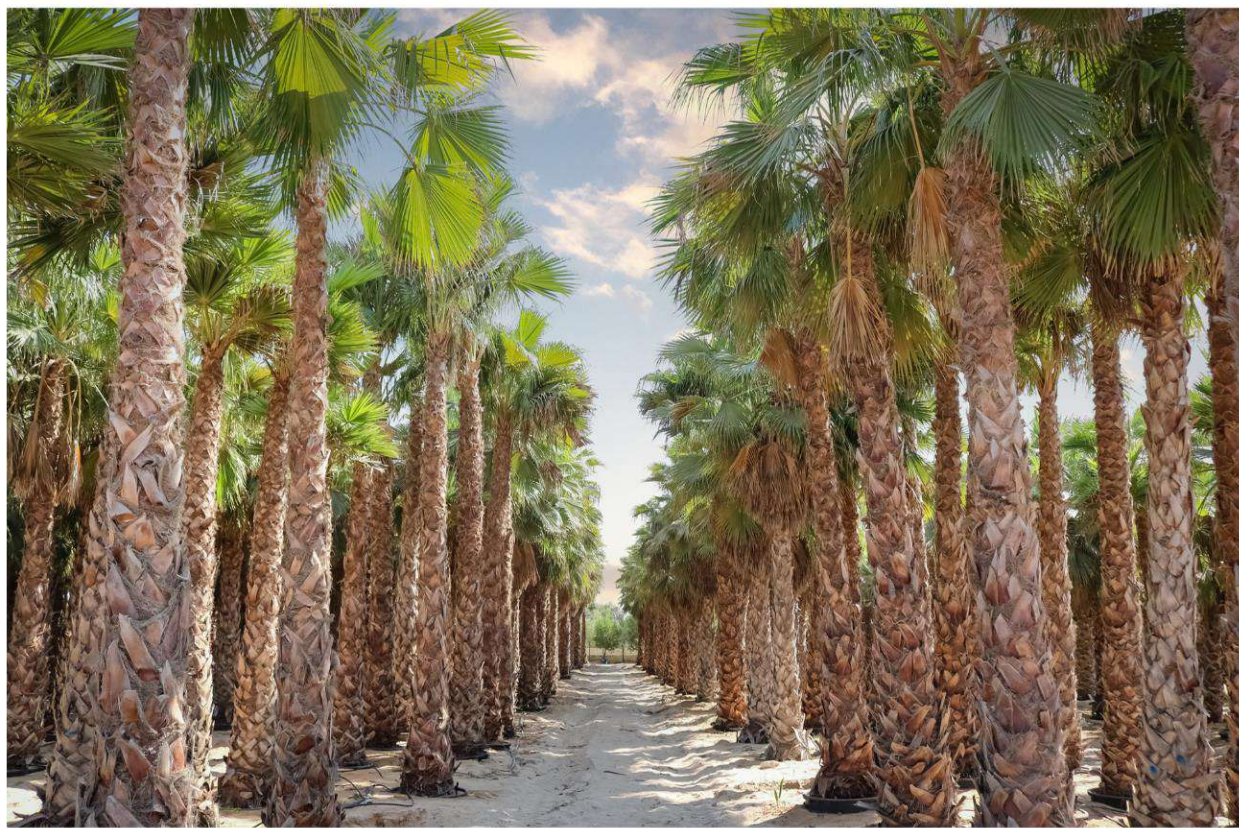

Discover the beauty and allure of our palm trees. From majestic date palms to elegant fan palms, our palm collection adds a touch of tropical paradise to any landscape.

PALMS

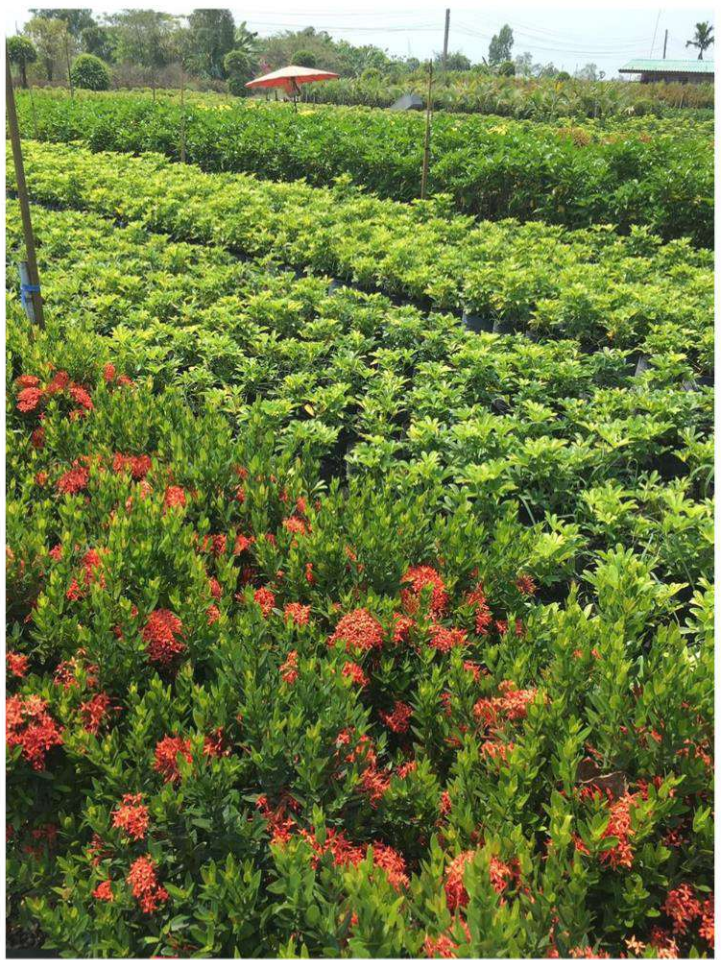

SHRUBS

Our shrub selection includes a variety of options, from flowering shrubs that bring vibrant bursts of color to your outdoor space to evergreen shrubs that provide structure and appeal year-round.

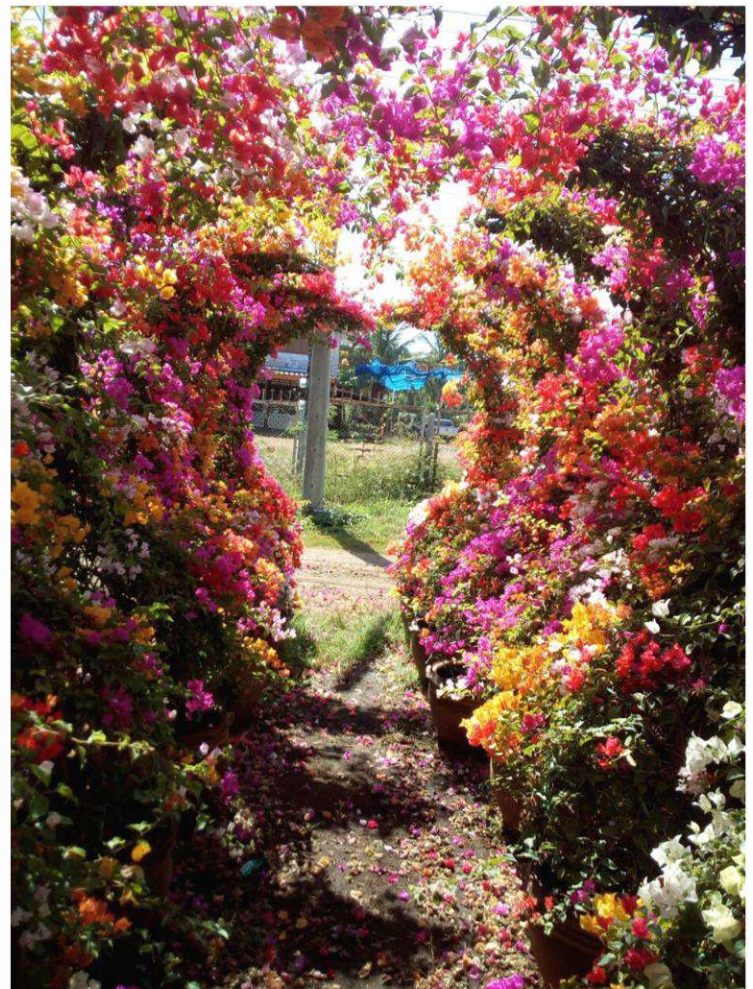

GROUNDCOVERS

Groundcover plants are essential for creating lush, weed-free landscapes. We offer a range of groundcover options that not only beautify your surroundings but also enhance soil stability.

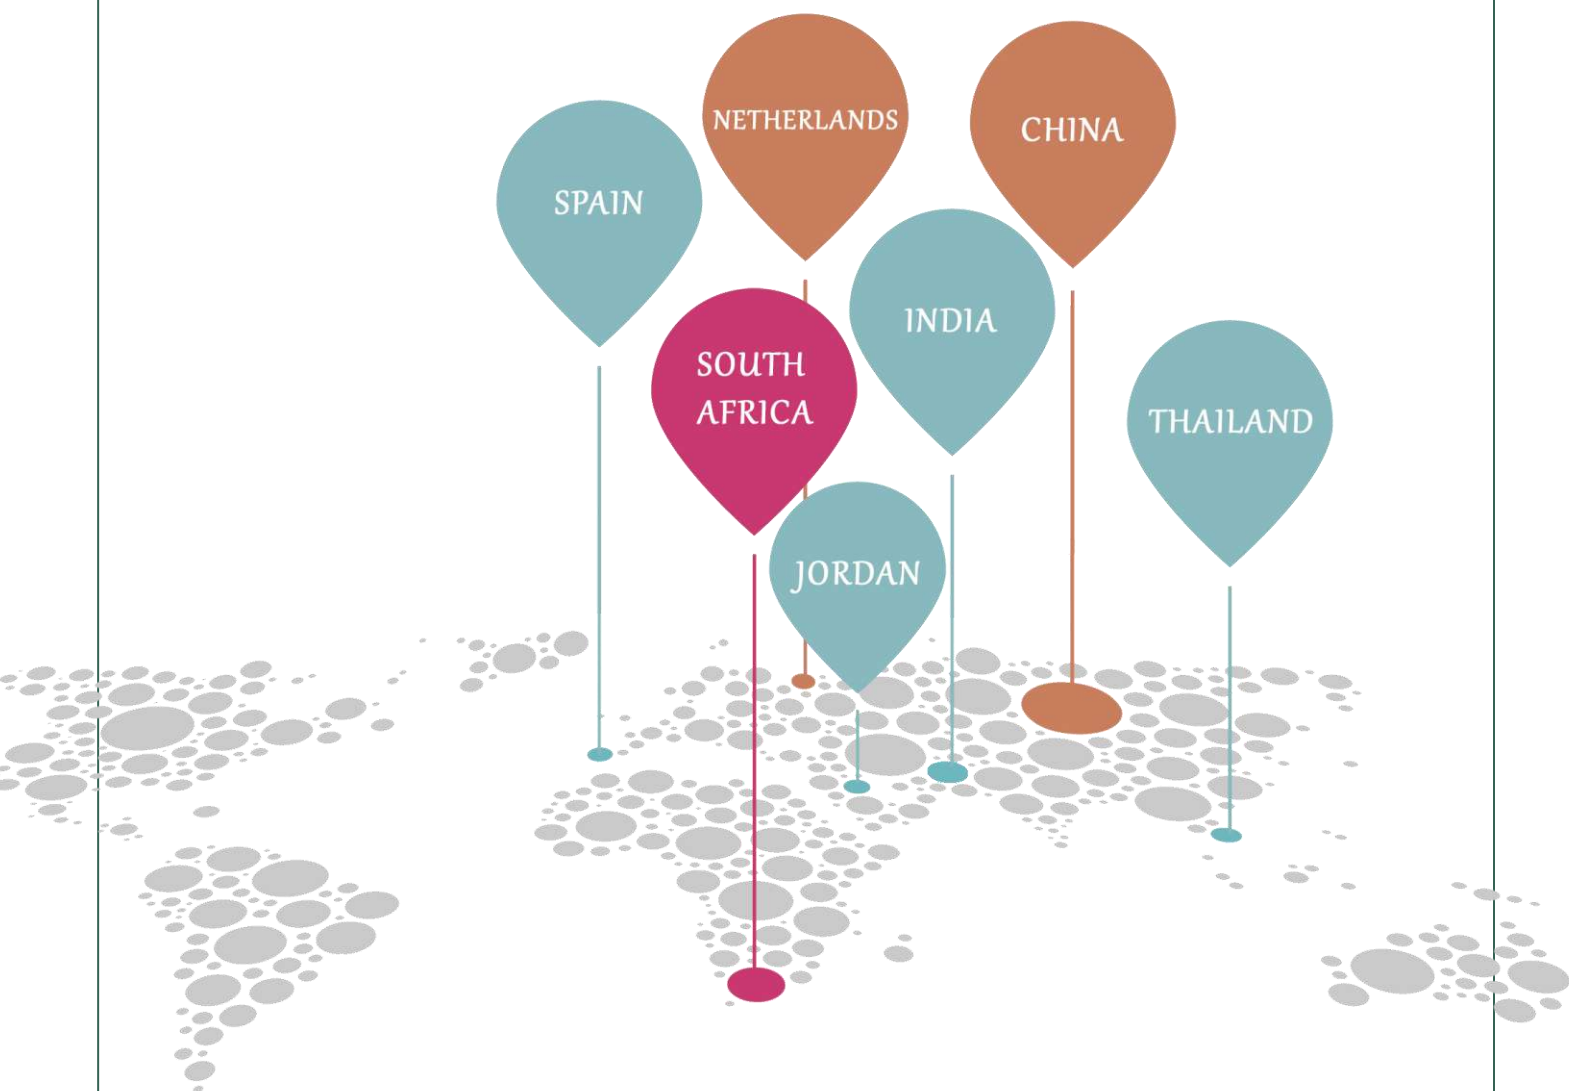

CACTUS

Embrace the unique beauty of cacti in your landscape. Our cacti selection includes a diverse range of species, each with its distinctive charm and resilience. Cacti are well-suited to Abu Dhabi's arid climate, requiring minimal water and maintenance.

SOURCING

We source our plant varieties from trusted suppliers and growers, ensuring a diverse and healthy plant inventory.

In addition to exporting, we also import specialized plant species and materials to enrich our offerings and meet diverse client demands.

IMPORT

BRANCHES

We source our plant varieties from trusted suppliers and growers, ensuring a diverse and healthy plant inventory.

Our valued clients include homeowners, landscapers, nurseries, developers, and government agencies, all of whom trust us to deliver exceptional horticultural solutions.
